Ascent through the Alta Rocca to the village of Zonza. Time to settle into your hotel.

Bavella to Paliri

The GR20 follows the ancient transhumance trail that joins Conca and Bavella, slowly winding down to the charming Paliri refuge. From the col de Finosa you will have a superb viewpoint of the sea and the gulf of Porto to the East. The return will lead you through the aiguilles de Bavella, a landscape with a rare beauty. The entire walk takes place in the shade of Laricco pine trees, a symbol of Corsica that you find in high-altitude forests.

Distance : 7km, duration : 5h00, altitude gain : +540m, descent : -540m.

The Trou de la Bombe

A walk to the Trou de la Bombe, a circular opening that pierces the Paliri crest of peaks. A pleasant walk under Larriccio pine trees and superb views over the gulf of Porto Vecchio.

Distance : 6km, duration : 3h00, altitude gain : +300m, descent : -300m.

D2 - The Aiguilles de Bavella

A spectacular walk in the heart of the aiguilles de Bavella massif. The tall needles of rose granite tower above, you will pass by different pinnacles, such as, the Acellu, Ariettu, Vacca and the Pargulu. The trail is sometimes steep and in places assisted by hand chains. The area of Bavella is reputed for rock climbing, it possesses a rare beauty, a chaotic jumble of granite. You plunge into an unusual mountain decor and it is surprising to glimpse views of the sea not far away.

Distance : 12km, duration : 7h00, altitude gain : +900m, descent : -900m.

Bavella to Corte

You leave behind Bavella for Solenzara via a picturesque, winding trail. The walk takes you along the Oriental coast to Aléria before arriving in Corte, Corsica's historical capital.

D3 - The Tavignano Gorge

From Corte a walk in the Tavignano gorge, a stone path will lead you into the gorge amidst a heady, warm Mediterranean vegetation of blue, black island lavender, the curry plant and juniper. The cliffs soar up above and deep below you can glimpse the pounding torrent with its numerous rock pools. For centuries, this age-old path was the link of communication and access route into the very isolated Niolu region. The towering granite cliffs have been beautifully sculpted by time, with clinging pine trees and rugged pinnacles all around, you will find the Tavignano gorge a haven of wild beauty. Your destination is a swing bridge that traverses the torrent, a great swimming and picnic place with smooth sun baked rocks and inviting clear rock pools.

Distance : 12km, duration : 6h00, altitude gain : + 480m, descent : - 480m.

D4 - Restonica Gorge

The small town of Corte is situated at the confluence of two magical gorges the Restonica and the Tavignano. This is a magnificent mountain walk, a well trodden route leads up to the lake of Melo. The path is assisted at two points by a ladder and a hand chain (no difficulty). You arrive at a large apple shaped, glacier lake surrounded by spongy grass. You press on higher to the abruptly contrasting lake of Capitellu, it is 40m deep, the deepest on the island. Sheer
